Dear Mr. Miller:

On April 25, 2007, the Division received a request to close the 3 referenced files. The Division has evaluated this request and based on observations made during a site inspection of the areas for these projects, the Division has determined that Since Promontory Point Land Resources had not conducted any mining related activity under the respective Notices, that the these files can be closed. Therefore, you will not be required to pay the annual permit fee or post the requested reclamation surety for these site.

If at some time in the future you desire to open any or all of these quarries, you will need to resubmit a Notice of Intent to Commence Mining Operations, pay the permit fee and submit a reclamation surety prior to beginning operations.

If you have any questions, please call me at (801) 538-5325 or Lynn Kunzler at 538-5310.

Sincerely,

Daron R. Haddock  
Permit Supervisor
